

This is a wheel type job chart, for up to four kids. you add the names of your child in the center, you can turn the wheel daily or weekly (that is how I do it)

Print both pages off and then on the second page cut off the outside area, write the children's names in the area's and then use a brad to hook it together and make it spin.

If you want to write your own jobs just print off the second page twice!

Have a great day!
